Product characteristics

High-performance **multilayered cast** PVC film

- Clear permanent solvent-based acrylic adhesive
- Thickness: **from 100 to 110 microns** depending on product code
- **HEX'PRESS** liner for easy application
- **Gloss, matt** or **satin** finish
- Indoor and outdoor application, on flat and curved surfaces
- Fire rating: **M1**
- Available in 1520 mm x 25 m

Product benefits

Its **ultra conformability** allows the product to be used on the most complex surfaces (mirrors, rivets, angles of furniture...)

Easy application without any creases or bubbles: the HEX'Press liner allows air to be released and the film to be repositioned during application

Save time - guaranteed!

The HEXIS +

Excellent long-term durability!

RANGE 1

Black & White

> up to
6 years*

RANGE 2

Colours

> up to
5 years*

(*) The actual durability of the product depends on several parameters such as the conditions of exposure (climate, angle of exposure), substrate, etc. /
